Total comfortable with the idea of “your child or grandchild having a serious relationship or marriage with someone from a different race or ethnic background”

Bases: Men [n = 1053], Women [n = 1096]; 18-34 [n = 602], 35-54 [n = 774], 55+ [n = 773]
Those from black and mixed race backgrounds more likely to be comfortable with interracial marriages than white or Asian respondents

Q1. Some people feel uncomfortable with the choices that their children or grandchildren might make about their relationships. Regardless of whether you have children at the moment, how would you feel if your child or grandchild were to have a serious relationship or marriage with any of the following: [Bases: Mixed race [n = 47], Black [n = 55], White [n = 1869], Asian [n = 123]]
Just under half think that mixed-race relationships are a good thing

The growth of mixed-race relationships is a good thing. It shows that people can and do mix across ethnic groups, which could help Britain become more integrated.

The growth of mixed-race relationships is a bad thing. It may lead to the dilution of the identity and culture of the different ethnic groups in our society - including white and ethnic minority cultures and identities.

Neither of these.

Don't know

Q2. When they are released, the 2011 UK Census figures will show an increase in the number of children born to parents of different ethnic backgrounds. Which of the following comes closest to your view?
[Base: Total population [n = 2149]]
While there is little variation by age or gender, SEG has an impact on attitudes towards mixed relationships.

The growth of mixed-race relationships is a good thing. It shows that people can and do mix across ethnic groups, which could help Britain become more integrated.

The growth of mixed-race relationships is a bad thing. It may lead to the dilution of the identity and culture of the different ethnic groups in our society - including

Net Scores (total comfortable - total uncomfortable)

Numbers in darkest green indicate the best supported statement for each age group

Q1. Some people feel uncomfortable with the choices that their children or grandchildren might make about their relationships. Regardless of whether you have children at the moment, how would you feel if your child or grandchild were to have a serious relationship or marriage with any of the following? [Base: Total population [n = 2149]]
A slight majority feel that children from mixed relationships can find it liberating to choose their own identity.

Children whose parents are from different racial or ethnic backgrounds from each other can find it liberating as they are able to choose their own identity for themselves.

Children whose parents are from different racial or ethnic backgrounds from each other can find it confusing or difficult to have a strong, secure ethnic or racial identity.

Neither of these.

Don’t know

Q3. Which of the following comes closest to your view? [Base: Total population [n = 2149]]
Women are more positive on this issue than men

Q3. Which of the following comes closest to your view?

* NB Small sample size
Opinion was fairly evenly split on the question of the importance of categorising people by their ethnic background, though slightly more are opposed to this.

By categorizing British people by their ethnic or racial background, we are simply emphasizing differences that shouldn’t matter at all. (39%)

In order to identify where discrimination is happening, it is important for the country to keep track of the ethnic or racial backgrounds of British people. (31%)

Neither of these. (17%)

Don't know (13%)

Q5. Which of the following comes closest to your view?
[Base: Total population [n = 2149]]
Men are more likely to want to keep track of people’s ethnic backgrounds than women

By categorizing British people by their ethnic or racial background, we are simply emphasizing differences that shouldn’t matter at all.

In order to identify where discrimination is happening, it is important for the country to keep track of the ethnic or racial backgrounds of British people.

Neither of these.

Don’t know

Q5. Which of the following comes closest to your view? [Bases: Men [n = 1053], Women [n = 1096]]
White and Asian respondents are more likely to think categorisation is important than mixed or black respondents

By categorizing British people by their ethnic or racial background, we are simply emphasizing differences that shouldn’t matter at all.

In order to identify where discrimination is happening, it is important for the country to keep track of the ethnic or racial backgrounds of British people.

Neither of these.

Don’t know

Q5. Which of the following comes closest to your view? [Base: Mixed race [n = 47], Black [n = 55], White [n = 1869], Asian [n = 123]]

* NB Small sample size
Slightly more respondents felt that the incidence of mixed marriage is higher in Britain than in the US.

Q7. Given what you know about Britain and the United States of America, in which country would you expect ethnic minority citizens to be more likely to marry people of different ethnic backgrounds to themselves?

[Base: Total population [n = 2149]]

- I think there is a similar likelihood in both countries: 42%
- I think this is more likely to happen in Britain: 27%
- I think this is more likely to happen in the United States of America: 19%
- Don't know: 12%
Women were less likely than men to be confident in having an opinion on this

Q7. Given what you know about Britain and the United States of America, in which country would you expect ethnic minority citizens to be more likely to marry people of different ethnic backgrounds to themselves? [Bases: Men [n = 1053], Women [n = 1096]]
Asians were the only racial group where a larger proportion think mixed marriage is more likely in the US than in the UK.

Q7. Given what you know about Britain and the United States of America, in which country would you expect ethnic minority citizens to be more likely to marry people of different ethnic backgrounds to themselves?

[Base: Mixed race [n = 47], Black [n = 55], White [n = 1869], Asian [n = 123]]
There was a consensus around the ethnicities of Tom Daley, Sebastian Coe and Mo Farah but considerable divergence in the categorisation of Mixed-race sportspeople.

Q8. In the UK, the census asks people to categorise themselves according to their ethnicity. Below is a list of famous sportspeople. Please say, to the best of your knowledge, which of the categories each belongs to.

[Base: Total population [n = 2149]]

NB: rebased to exclude ‘other ethnicity’ and ‘don’t know’ responses
Similarly large proportion of respondents identified Tom Daley as white and Mo Farah as black.

Q8. In the UK, the census asks people to categorise themselves according to their ethnicity. Below is a list of famous sportspeople. Please say, to the best of your knowledge, which of the categories each belongs to.

[Base: Total population [n = 2149]]

NB: rebased to exclude ‘other ethnicity’ and ‘don’t know’ responses.
There was far less consensus when it came to mixed-race sportspeople – with more even spread across different answers, with the exception of Seb Coe who the majority thought was white.

Q8. In the UK, the census asks people to categorise themselves according to their ethnicity. Below is a list of famous sportspeople. Please say, to the best of your knowledge, which of the categories each belongs to.

[Base: Total population [n = 2149]]

* Note: rebased to exclude ‘other ethnicity’ and ‘don’t know’ responses
After taking out all who answered “mixed race” or “Asian”, we can see that Jessica Ennis pulls apart from the others mixed race sportspeople: When they incorrectly identified Jessica Ennis’ racial background, they were more likely to say she was white, whereas for each of the others respondents were more likely to assume they were black.

Q8. In the UK, the census asks people to categorise themselves according to their ethnicity. Below is a list of famous sportspeople. Please say, to the best of your knowledge, which of the categories each belongs to. [Base: Total population [n = 2149]]

* Note: rebased to exclude ‘Mixed-race’, ‘Asian’, ‘other ethnicity’ and ‘don’t know’ responses
People who are uncomfortable with mixed marriages are generally less able to accurately identify individuals’ racial backgrounds.
